If you entertain a lot, batch bake or cook for your deep freeze then this larger model gives you all the scope you need. This is a powerful food processor that will mix, grate, slice, chop, whisk, knead and liquidize your ingredients. It's perfect for blending soups, making pastry and cutting up vegetables. Along with the main bowl, it has an integrated mini processor for processing smaller quantities for things such as dips, mayonnaise or baby food. The midi bowl can be used for slicing and shredding ingredients. There's only one speed, which quietly operates at the automatically calculated optimum speed, and the ever helpful pulse function.
